I bring to the table a varied professional career and experience base, including the following:

- National Bank Examiner, Office of the Comptroller of the Currency, US Treasury;
- Judge, Amarillo Municipal Court of Record;
- Risk Manager, Ultramar Diamond Shamrock;
- Oil and Gas Producer, Sunoco Unit (27 years and current);
- Trial Attorney (39 years and current) with three Supreme Court victories;
- MBA, Texas Tech, CPA (31 years); and
- Texas Counsel for the Center for Public Policy (10 years and current).

My priority has been to fight for constitutional rights and liberties of all Texans including two constitutional Texas Supreme Court wins securing the **right to be heard**. Nearly ten years ago I began working as Texas Counsel for the Center for Security Policy and served as the lead attorney stakeholder in American Laws for American Courts (HB45) to prevent any foreign law (including Sharia) violative of fundamental constitutional rights from being enforced in Texas courts. I have been honored to speak at over 125 engagements across Texas on topics such as Sharia, Sharia and Women, The American Covenant, Political Christianity, the Constitution, Education, the Paxton Impeachment, RPT Principles and scripture, legislative issues and other liberty topics.

I am working with Col. Phil Waldron, (Ret) and Lt. Col. Pete “Doc” Chambers, on private sector responses to the slave/sex trade in Texas and voter theft, fraud and election integrity. As an activist, I will continue seeking criminal referrals to Ken Paxton regarding Covid crimes. I continue to lead annually a Constitution Day event for select lawyers and judges to present to thousands of high school students, lessons on the constitution who receive pocket constitutions. From serving as counsel for Truth in Textbooks Coalition to sounding the clarion call against HB1605, a \$2.4 B data grabbing, big tech, anti-local control vendor bill, I continue fighting back against the woke agenda. I have served Comal County as a precinct chair for 8 years, a state delegate to 5 conventions and a National Convention Delegate, alt. in 2020.

As Chair of the Constitutional Issues subcommittee at the 2022 RPT Convention I was proud to successfully author and advocate for adding **“Individual Sovereignty”** to the RPT principles. I currently serve as the Vice-Chair of Resolutions and Chair of the Gun Rights Legislative Priorities subcommittee. I will continue being a positive influence in protecting and preserving liberty, as well as supporting platform guided school choice. I welcome your questions and look forward to continuing to work with you to Keep Texas Red this November! Along the way I have worked on over 25 conservative primary and general election candidate campaigns. I pledge to continue to remain available and present going forward to serve you as your Committeeman and will advocate for our elected officials adhering to the RPT principles, platform, legislative priorities and resolutions. I would appreciate your vote.***
